Subject: testomony on bill#6050

Dear Sir;

I wish to add my voice against placng tolls in the state of Conneticut. The cost of adding the toll booths and employees along with maintaining the booths would be an etreme amount of money for the rewards gotten.

I also believe we wold also lose monies allocated by our goverment to the state beause we would be generating money and therefore reduce our eligibility to receive our far share.

Regards
